Suggested Social Media Copy for January 2023 COVID Information Commons Webinar: Research Lightning Talks

Date: Tuesday, January 31st, 3:00 - 4:30 (ET)

Event Information:

Meet the scientists seeking new insights on COVID-19. Every month, we bring together a group of researchers studying wide-ranging aspects of the current pandemic, to share their research and answer questions from our community. Learn more about their ongoing efforts in the fight against COVID-19, including opportunities for collaboration.

This webinar will feature the following speakers:

- Mark Lurie, Brown University. Mobility Analysis for Pandemic Prevention Strategies (MAPPS). Funded by NSF Chemical, Bioengineering, Environmental and Transport Systems (CBET).

- Peter Pirolli, Florida Institute for Human & Machine Cognition, Inc. Computational Theory of the Co-evolution of Pandemics, (Mis)information, and Human Mindsets and Behavior. Funded by NSF Behavioral and Cognitive Sciences (BCS).

- Rebecca Powell, Icahn School of Medicine at Mount Sinai. Comprehensive assessment of SARS-CoV-2-reactive antibodies in human milk to determine their potential as a COVID-19 therapeutic and as a means to prevent infection of breastfed babies. Funded by NIH, National Institute of Allergy and Infectious Diseases.

- Jennifer Surtees, University at Buffalo. Center for Ecosystems Data Integration and Pandemic Early Warning Systems. Funded by NSF Predictive Intelligence for Pandemic Prevention Phase 1.
